## PROFESSIONAL SUMMARY

- Electronics Engineering graduate (VESIT, 2025) with four internships spanning network engineering, IT infrastructure support and software development, including a client-site deployment at NPCIL (Nuclear Power Corporation of India Ltd).
- Supported an enterprise network of about 1,400 users: LAN deployment, IP management, proxy configuration, NAS administration (Synology Drive) and end-user support, with exposure to VLAN segmentation, firewall controls and security monitoring.
- Holds six Microsoft Azure and Google Cloud certifications, including SC-900 and SC-300; currently pursuing CompTIA Security+, Microsoft SC-100 and Google Cloud Generative AI Leader.
- Seeking to build a career in cybersecurity, cloud computing and AI-enabled IT operations, while concurrently pursuing an LL.B. and preparing for GATE 2027 (ECE).

## TECHNICAL SKILLS

**Networking & IT Infrastructure:** LAN Deployment & Structured Cabling (RJ45 Termination), IP Addressing, Switches, Routers, Proxy Servers, VLANs, Firewalls, NAS (Synology Drive), Cisco Packet Tracer, Ping / Traceroute, Ticketing & End-User Support

**Cybersecurity:** Identity & Access Management (IAM), SIEM (Splunk – foundational), Vulnerability Assessment (Nessus – foundational), Packet Analysis (Wireshark), Incident Response, Threat & Attack Analysis, Cryptography & PKI, Risk Management, Secure Network Architecture

**Cloud Computing:** Microsoft Azure (AZ-900, DP-900, AI-900, SC-900, SC-300), Google Cloud (Cloud Digital Leader)

**Artificial Intelligence:** Azure AI Fundamentals (AI-900), Generative AI (Google Cloud Generative AI Leader – in progress), AI tools for research, documentation and productivity

**Development & Operating Systems:** C, Python, SQL, Flask, HTML5, CSS, Linux CLI, Windows, Git, GitLab, Visual Studio Code, WordPress

**Design, Documentation & Tools:** Figma, Technical Writing, User Manual Authoring, Content Structuring, Google Workspace Administration, MATLAB, Arduino IDE

## PROFESSIONAL EXPERIENCE

**Network Intern – LAN Engineer** | Micropoint Computers Pvt. Ltd. Aug 2026 – Oct 2026

*Client site: NPCIL (Nuclear Power Corporation of India Ltd), Anushakti Nagar, Mumbai*

- Served as part of a 10-member IT support team providing network and end-user support to approximately 1,400 users.
- Commissioned new LAN connections end to end, including RJ45 cable termination and fabrication, IP address allocation, and verification of switch and router connectivity.
- Resolved user-reported network issues raised through support calls, using LAN cable testers, crimping tools and diagnostic utilities to identify and rectify faults.
- Configured proxy settings to enable access to authorised websites within NPCIL's strictly controlled enterprise network.
- Deployed Synology Drive on a NAS server and configured the Synology Drive client on user devices, enabling convenient file storage and backup; resolved configuration issues and delivered demonstrations and user guidance.
- Installed and maintained end-user software, recorded incidents in a ticketing system, and documented resolutions for future reference.

**IT Support & Network Security Intern – LAN Team** | AMITR Engineering College Mar 2026

*Vaveghar, Maharashtra • 1-month internship*

- Supported campus LAN operations, including new connections, IP allocation, cabling and connectivity troubleshooting.
- Assisted in implementing network security controls, including VLAN segmentation (students, faculty, administration, labs and guest Wi-Fi), firewall rules, ACLs and switch port security.
- Gained exposure to security operations by reviewing firewall and SIEM alerts and documenting incidents for escalation.
- Supported system administration activities, including patching of lab systems and management of user accounts and role-based access.

**Junior Software Developer & Technical Content Writer** | Hornbill Studios Pvt. Ltd. Sep 2025 – Jan 2026

*Client site: Larsen & Toubro (L&T), Powai, Mumbai*

- Administered GitLab repositories and local Git workflows using Visual Studio Code, covering version control, data operations and repository lifecycle maintenance.
- Designed interface screens and visual mock-ups in Figma for client presentations and reviews.
- Authored and transcribed user manuals and technical documentation for proprietary client software, ensuring accuracy, consistency and structured presentation of data, in collaboration with cross-functional teams.

**Network Engineer Intern – LAN** | Sardar Patel Institute of Technology (SPIT), Andheri Jun 2025

*1-month internship • Worked independently as the sole intern*

- Set up new LAN connections independently, including RJ45 cable crimping and fabrication, IP address assignment and switch and router connectivity checks.
- Diagnosed and resolved user-reported network faults using LAN cable testers, crimping tools and diagnostic utilities.
- Configured proxy settings to allow access to authorised websites within the institute's controlled network.
- Installed and supported end-user software and documented issues and resolutions for future reference.
- Designed and simulated network topologies in Cisco Packet Tracer, applying IP addressing and route tracing, and validated connectivity on physical devices.

## KEY PROJECTS

- PCB F.O.R.G.E – Autonomous PCB Soldering Machine
- Smart Wheelchair – One-Stop Solution for Physically Disabled People
- Hand Motion Controlled RC Vehicle
- Digital Timer for Induction Annealing Machine
- Automatic Room Light Controller

## CERTIFICATIONS

### Completed

- Microsoft Azure Fundamentals (AZ-900)
- Microsoft Azure Data Fundamentals (DP-900)
- Microsoft Azure AI Fundamentals (AI-900)
- Microsoft SC-900 – Security, Compliance & Identity
- Microsoft SC-300 – Identity & Access Administrator
- Google Cloud Digital Leader

### In Progress

- CompTIA Security+
- Microsoft Cybersecurity Architect Expert (SC-100)
- Google Cloud Generative AI Leader

## EDUCATION

**B.E. – Electronics Engineering** | VESIT, Chembur (University of Mumbai) | CGPA 6.35 (59.73%) Jul 2022 – Jul 2025

**LL.B. (3-Year Program)** | Pursuing concurrently Oct 2025 – Present

*1st year completed; currently in 2nd year*

**Diploma – Industrial Electronics** | Shri Bhagubai Mafatlal Polytechnic, Vile Parle | 76.59% 2019 – 2022

**SSC** | N. L. Dalmia High School, Mira Road | 91.2% Jun 2019

**GATE 2027 – Electronics & Communication Engineering (ECE)** Preparing

## ACHIEVEMENTS & EXTRA-CURRICULARS

- Secured **1st Rank** for B.E. final year group project (PCB F.O.R.G.E)
- UCMAS Certified (Level 1–8) | Participated in Zephyr'24 Exhibition & Poster Competition (Aug 2024)
- Attended Cybersecurity Conclave 2024 and Drone-Based Wireless Communication Seminar (2020)
- Blue Belt – Okinawa Shorin-Ryu Karate-Do Bukenkan of India | College cricket & badminton | Event volunteer
